

CLASS	III	<p>Description: Linear Park and Trail System along Gallatin River from Huffine Lane to Baxter Lane. Route would provide a linear park and trail system that would access the Gallatin River from the Edgewater access on Huffine and meander along the river connecting with the county gravel pit described in Project #48.</p> <p>Project is a huge undertaking and would require partnerships with agencies and nonprofit groups to make it happen. The cost of purchasing easements and land along the river would be an expensive proposition if there were willing landowners.</p>
TREAD	NATURAL FINES	
MINIMUM WIDTH	48'	
DATE ADOPTED	2010
